Nature vs Nurture

- How much contribution do genetic factors make to our behavior? What about environmental factors?
- For years, those questions haunted psychologists.
- Some psychologists believe genetics is like a plant, and the environment is like rain, soil, or fertilizer.
- Genes decide what you might be and the environment decides the end product.

Essential Question: How is behavior affected by heredity?

Auto-realizable prophecy It is a situation where the expectations of a researcher influence the behavior of his person and thus influence the behavior of the participants. Variability measures Variability - a measure of difference, or data dissemination interval- subtracting the score The lowest highest score and add 1.
